

Can you develop voluntary organisation's use of ICT?

The Circuit Rider, initially funded for six months, will work with a diverse range of small sized voluntary and community organisations needing to manage ICT to carry out their missions more effectively. For many, that's a real challenge.

You will deliver a Pilot Circuit Rider service (mobile ICT information and development support) to six participating voluntary and community sector organisations in Milton Keynes publicising the project; recruiting and supporting the organisations; helping them formulate and implement IT strategies and action plans and manage existing ICT resources effectively. You will evaluate the effectiveness of and the need for an extended Circuit Rider service in Milton Keynes.

The Post will be 27 ½ hrs. pw, £17,500.
(pro rata on a 35 hr week).
